MosaiQ™ by Quotient

With over 30 years’ experience in transfusion diagnostics, Quotient established itself as an innovator with its proprietary technology, MosaiQ by Quotient – the future of diagnostics. The high-throughput MosaiQ system is a fully automated and consolidated testing platform, targeting transfusion diagnostics, performing blood grouping and transfusion-transmitted infectious disease screening of donated blood. MosaiQ was specifically designed to address the challenges of today’s resource-constrained transfusion diagnostics environments.

“More than ever, the global society relies on innovation to help progress humanity and make our lives more productive, healthy and comfortable,” said Maria Jimenez, Chief Operating Officer of the Business Intelligence Group. “We are thrilled to be honoring Quotient Limited, as they are one of the organizations leading this charge and helping humanity progress.”

Organizations from across the globe submitted their recent innovations for consideration in the BIG Innovation Awards. Nominations were then judged by a select group of business leaders and executives who volunteer their time and expertise to score submissions.
