

ALBAcheck® Competency Testing Kit (Z276)

The ALBAcheck® Competency Testing Kit is an effective way to train and assess competency in the identification of unknown antibodies. It is a great tool for current and new staff as well as students.

FEATURES

- Predictable results from a stable, proven sample
- Blinded uniquely numbered samples with manager-only answer key access
- Ready-to-use samples
- Antibody samples derived from human plasma*
- 10 x 2 mL vials per kit
- Nine positive antibody samples and one non-reactive sample
- Suitable for testing with multiple antibody identification methods, such as saline, LISS, PEG and gel
- Extended expiration of antibody positive samples

BENEFITS

- Assess staff competency and proficiency in identifying unknown antibodies
- Eliminate sharing of results between staff
- Streamline preparation of competency assessments
- Mimics patient samples
- Test up to 10 staff members
- Sample variations include both frequent and infrequent antibodies
- Ready source of samples for comparability of methods (42 CFR 493.1281 and CAP COM.04250¹)
- Supports internal validation studies

*Alba reserves the right to include samples derived from monoclonal cell lines if suitable plasma donations are unavailable.

Hypothetical sample format

VIAL 1	VIAL 2	VIAL 3	VIAL 4	VIAL 5	VIAL 6	VIAL 7	VIAL 8	VIAL 9	VIAL 10
Anti-Fy ^a	Anti-s	Anti-D+C	No antibody present	Anti-S	Anti-K	Anti-E	Anti-Jk ^a	Anti-D	Anti-c
