Notes:

- 1. All cells are DAT negative.
- 2. NT = Not tested.
- 3. The f antigen status has been determined presumptively.
- 4. Cell #4 is designated as R_0R_0 based on the statistical probability for the source donor population but a genotype of R_0 r cannot be excluded.
- * Indicates those antigens whose presence or absence may have been determined using only a single example of a specific antibody.
