AliveDx

At AliveDx, we empower diagnostic insights, transform patient care, and innovate for life. With over 30-years in in-vitro diagnostics, we put the health of patients first by creating innovative solutions designed for faster disease detection to shorten the time to diagnosis. Alba—our blood bank reagents portfolio—and MosaiQ®—one of the first multiplexing and multimodality automated testing platforms—are designed to make labs more efficient and clinical decision-making more effective. Our journey started as Alba Bioscience, and later, Quotient. Today, as AliveDx, we innovate for life.

AliveDx's operations are based in Switzerland, Scotland, US and the UAE.
