

ALBCheck® Competency Testing Kit

Effective staff training and competency testing are critical to maintaining blood bank compliance and promoting best practices. However, developing and implementing a consistent, efficient assessment process can be challenging and time consuming – especially in a busy laboratory with limited resources.

Competency testing, simplified.

Streamline your process with the ALBCheck Competency Testing Kit – an effective and convenient tool to train and assess staff and student competency in the identification of unknown antibodies.

FEATURES

Predictable results from a stable, proven sample
Blinded uniquely numbered samples with manager-only answer key access
Ready-to-use samples
Antibody samples derived from human plasma*
10 x 2 mL vials per kit
Nine positive antibody samples and one non-reactive sample
Suitable for testing with multiple antibody identification methods, such as saline, LISS, PEG and gel
Extended expiration of antibody positive samples

BENEFITS

Assess staff competency and proficiency in identifying unknown antibodies
Eliminate sharing of results between staff
Streamline preparation of competency assessments
Mimics patient samples
Test up to 10 staff members
Sample variations include both frequent and infrequent antibodies
Ready source of samples for comparability of methods (42 CFR 493.1281 and CAP COM.042501)
Supports internal validation studies

*Alba reserves the right to include samples derived from monoclonal cell lines if suitable plasma donations are unavailable.

Hypothetical sample format

VIAL 1	VIAL 2	VIAL 3	VIAL 4	VIAL 5	VIAL 6	VIAL 7	VIAL 8	VIAL 9	VIAL 10
Anti-Fy ^a	Anti-s	Anti-D+C	No antibody present	Anti-S	Anti-K	Anti-E	Anti-Jk ^a	Anti-D	Anti-c

Why choose Alba?

Expert technical support from experienced blood bankers

Tailored implementation support

Responsive customer service and reliable inventory

Customized Smart Spend cost savings analysis

AliveDx

At AliveDx, we empower diagnostic insights, transform patient care, and innovate for life. With over 30-years in in-vitro diagnostics, we put the health of patients first by creating innovative solutions designed for faster disease detection to shorten the time to diagnosis. Alba—our blood bank reagents portfolio—and MosaiQ®—one of the first multiplexing and multimodality automated testing platforms—are designed to make labs more efficient and clinical decision-making more effective. Our journey started as Alba Bioscience, and later, Quotient. Today, as AliveDx, we innovate for life.
