Notes:

1. All cells are DAT negative.
2. NT = Not tested.
3. The f antigen status has been determined presumptively.
4. Cell #4 is designated as R<sub>0</sub>R<sub>0</sub> based on the statistical probability for the source donor population but a genotype of R<sub>0</sub>r cannot be excluded.

\* Indicates those antigens whose presence or absence may have been determined using only a single example of a specific antibody.
