	Pati	ent Cells																																					

Notes:

1. All cells are DAT negative.

2. NT = Not tested.

3. The f antigen status has been determined presumptively.

4. Cell #4 is designated as R_0R_0 based on the statistical probability for the source donor population but a genotype of R_0r cannot be excluded.

* Indicates those antigens whose presence or absence may have been determined using only a single example of a specific antibody.
